

Course Information Sheet for entry in 2025-26: MSc by Research in Clinical Neurosciences

Course facts

Mode of study	Full Time	Part Time
Expected length	1-3 years	2-6 years

About the course

The MSc by Research in Clinical Neurosciences offers excellent opportunities for high quality research training, for both clinical and non-clinical graduates, in wide-ranging leading areas of clinical neuroscience.

As an MSc by research student in Nuffield Department of Clinical Neurosciences (NDCN) you will be a part of one of the leading and largest clinical neuroscience departments in Europe. The MSc (Res) in Clinical Neurosciences will develop your skills through a range of research and practical training.

The department offers excellent opportunities for high quality research training in wide-ranging leading areas of clinical neuroscience. Much of the graduate research in the department is interdisciplinary and in collaboration with research leaders at other research centres. In addition, the department as a whole sponsors regular seminars and public lectures which attract distinguished national and international speakers.

NDCN incorporates six divisions each of which hosts world-leading programmes in basic, translational and clinical research.

- Centre for Prevention of Stroke and Dementia
- Division of Clinical Neurology
- MRC Brain Network Dynamics Unit
- Nuffield Division of Anaesthetics
- Nuffield Laboratory of Ophthalmology
- Wellcome Centre for Integrative Neuroimaging

You will be admitted directly to a particular research area and you will work alongside your supervisors to develop your programme of study which is normally part of a larger research group with shared interests. You will not normally do laboratory rotations.

There are no taught courses examined by written papers but there is a wide range of courses and workshops available across the Medical Sciences Division and you will be encouraged to attend regular departmental and divisional seminars

The MSc (Res) in Clinical Neurosciences is normally a two-year course if studied full-time, though if you have an appropriate background in research, you may complete it in one year.

Attendance

The course can be studied full-time or part-time with both modes requiring attendance in Oxford. Full-time students are subject to the University's Residence requirements. Part-time students are required to attend course-related activities in Oxford for a minimum of 30 days each year.

Completing this course on a part-time basis normally requires between two and six years of study, compared with the full-time master's course which takes between one and three years to complete.

For part-time students the minimum of thirty days of university-based work each year will be arranged with the agreement of your supervisor(s), for the period that your name remains on the Register of Graduate Students, unless individually dispensed by the Board. During a candidate's probationary period the attendance arrangements must take account of relevant induction and training events scheduled by the Board.

Provision exists for students on some courses to undertake their research in a 'well-founded laboratory' outside of the University. This may require travel to and attendance at a site that is not located in Oxford. Where known, existing collaborations will be outlined on this page. Please read the course information carefully, including the additional information about course fees and costs.

Resources to support your study

As a graduate student, you will have access to the University's wide range of world-class resources including libraries, museums, galleries, digital resources and IT services.

The Bodleian Libraries is the largest library system in the UK. It includes the main Bodleian Library and libraries across Oxford, including major research libraries and faculty, department and institute libraries. Together, the Libraries hold more than 13 million printed items, provide access to e-journals, and contain outstanding special collections including rare books and manuscripts, classical papyri, maps, music, art and printed ephemera.

The University's IT Services is available to all students to support with core university IT systems and tools, as well as many other services and facilities. IT Services also offers a range of IT learning courses for students, to support with learning and research.

Workspace will be related to individual circumstances. If undertaking experimental work, bench space will be provided within a laboratory; if undertaking theoretical research, there will be shared office space. The provision of other resources specific to a project should be agreed with the supervisor as part of the planning stages of the agreed project as financial support from the department must not be assumed.

Supervision

Once enrolled on the MSc (Res) the allocation of graduate supervision for this course is the responsibility of the Nuffield Department of Clinical Neurosciences and it is not always possible to accommodate the preferences of incoming graduate students to work with a particular member of staff. Under exceptional circumstances a supervisor may be found outside the Nuffield Department of Clinical Neurosciences.

In line with the Divisional Code of Practice for supervisors, formal meetings outside the lab between student and supervisor should take place at least once per term (so three times per year) whereas meetings with day-to-day supervisors should take place much more frequently (c. 26 times per year, equating to roughly fortnightly). The Graduate Supervision Reporting (GSR) system asks both students and supervisors to record the frequency of meetings during the term being reported on retrospectively. In the case of students who require specific help to adjust to an academic programme or to a new range of skills, the supervisor will work with them to ensure that they have additional support. The department is often able to financially support the undertaking of formal skills training that is essential to the successful completion of the MSc (Res) and/or relevant conference attendance.

Assessment

You will begin your course as a probationary research student (PRS) and you will be monitored and assessed regularly via completion of termly reports by you and your supervisors through the Graduate Supervision Reporting (GSR) system.

You will be expected to transfer your status from PRS to MSc (Res) before the end of your first year (or second year if you are studying part-time). To transfer your status, you must apply formally, submit a research report and statement of future research plans, and take an independent assessment conducted by two assessors.

The degree is examined by thesis and oral examination by two examiners. Most full-time MSc (Res) students submit their thesis within two years; for part-time students this is more often 3 to 6 years.

Changes to this course

The University will seek to deliver this course in accordance with the description set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after you commence your course. These might include significant changes made necessary by any pandemic, epidemic or local health emergency. For further information, please see the University's Terms and Conditions (<http://www.graduate.ox.ac.uk/terms>) and our page on changes to courses (<http://www.graduate.ox.ac.uk/coursechanges>).

Costs

Annual fees for entry in 2025-26

Full-time study

Fee status	Annual Course fees
Home	£10,070
Overseas	£33,370

Part-time study

Fee status	Annual Course fees
Home	£5,035
Overseas	£16,685

Information about course fees

Course fees are payable each year, for the duration of your fee liability (your fee liability is the length of time for which you are required to pay course fees). For courses lasting longer than one year, please be aware that fees will usually increase annually. Information about how much fees and other costs may increase is set out in the University's Terms and Conditions (<http://www.graduate.ox.ac.uk/terms>).

Course fees cover your teaching as well as other academic services and facilities provided to support your studies. Unless specified in the additional cost information (below), course fees do not cover your accommodation, residential costs or other living costs. They also don't cover any additional costs and charges that are outlined in the additional cost information.

Graduate students who have reached the end of their standard period of fee liability may be required to pay a termly University and/or a college continuation charge.

The University continuation charge, per term for entry in 2025-26 is £672, please be aware that this will increase annually. For part-time students, the termly charge will be half of the termly rate payable by full-time students.

If a college continuation charge applies (not applicable for non-matriculated courses) it is likely to be in the region of £100 to £600. Please contact your college for more details, including information about whether your college's continuation charge is applied at a different rate for part-time study.

Additional cost information

Full-time study

There are no compulsory elements of this course that entail additional costs beyond fees (or, after fee liability ends, continuation charges) and living costs. However, please note that, depending on your choice of research topic and the research required to complete it, you may incur additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

Part-time study

Please note that you are required to attend in Oxford for a minimum of 30 days each year, and you may incur additional travel and accommodation expenses for this. Also, depending on your choice of research topic and the research required to complete it, you may incur further additional expenses, such as travel expenses, research expenses, and field trips. You will need to meet these additional costs, although you may be able to apply for small grants from your department and/or college to help you cover some of these expenses.

Living costs

In addition to your course fees and any additional course-specific costs, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

If you are studying part-time your living costs may vary depending on your personal circumstances but you must still ensure that you will have sufficient funding to meet these costs for the duration of your course.

The likely living costs for the 2025-26 academic year are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

Likely living costs for one month

	Lower range	Upper range
Food	£330	£515
Accommodation	£790	£955
Personal items	£200	£335
Social activities	£45	£100
Study costs	£40	£90
Other	£20	£40
Total	£1,425	£2,035

Likely living costs for nine months

	Lower range	Upper range
Food	£2,970	£4,635
Accommodation	£7,110	£8,595
Personal items	£1,800	£3,015
Social activities	£405	£900
Study costs	£360	£810
Other	£180	£360
Total	£12,825	£18,315

Likely living costs for twelve months

	Lower range	Upper range
Food	£3,960	£6,180
Accommodation	£9,480	£11,460
Personal items	£2,400	£4,020
Social activities	£540	£1,200
Study costs	£480	£1,080
Other	£240	£480
Total	£17,100	£24,420

When planning your finances for any future years of study at Oxford beyond the 2025-26 academic year, it is suggested that you allow for potential increases in living expenses of 4% each year – although this rate may vary depending on the national economic situation.

More information about how these figures have been calculated is available at www.graduate.ox.ac.uk/livingcosts.

Document accessibility

If you require a more accessible version of this document please contact Graduate Admissions and Recruitment by email (graduate.admissions@admin.ox.ac.uk) or via the online form (<http://www.graduate.ox.ac.uk/ask/form>).
