

## Course Information Sheet for entry in 2025-26: PGDip in Health Research

### Course facts

Mode of study	Part Time Only
Expected length	1 to 3 years

### About the course

The Postgraduate Diploma (PGDip) in Health Research is designed for medical and dental trainees with the potential to become independent researchers, and to be taken part-time alongside work commitments, normally over one to three years.

The Postgraduate Diploma (PGDip) in Health Research will help you to:

- develop skills of research, design and data analysis in both qualitative and quantitative research;
- critically evaluate health research;
- identify, critically appraise and incorporate the results of medical and social science research into the day-to-day decision making of clinical, scientific and administrative practice;
- apply the principles of evidence-based practice in health care settings;
- plan how to implement the findings of research to improve health care; and
- use theories and principles underpinning clinical research to inform their own research practice.

In addition to the skills acquired during the PGCert in Health Research, graduates of the PGDip will be able to demonstrate an ability to apply health research techniques appropriately to research questions, and apply health research solutions appropriately when analysing health research problems.

The course is delivered through the Department for Continuing Education, with the expertise in curriculum design and teaching drawn from the Nuffield Department of Primary Care Health Sciences, the Centre for Evidence-Based Medicine and the Clinical Academic Graduate School.

You will take two compulsory modules and four option modules from those currently available; further information on all course modules is available via the course page on the Department for Continuing Education website (see *Further Information and Enquiries*).

The two compulsory modules are:

- The Practice of Evidence-Based Health Care
- Introduction to Study Design and Research Methods.

Three further modules may be chosen from List B; one further module may be chosen either from List B or List C.

List B:

- Clinical Trial Management
- Mixed Methods in Health Research
- Knowledge into Action
- Evidence-based Diagnosis and Screening
- Introduction to Statistics for Health Care Research
- Systematic Reviews
- Randomized Controlled Trials
- Qualitative Research Methods
- Essential Medical Statistics
- The Structure of Clinical Trials and Experimental Therapeutics
- How to do Research on Therapeutic Interventions: Protocol preparation
- Biological Therapeutics
- Pharmacodynamics, Biomarkers and Personalised Therapy
- Adverse drug reactions, drug interactions and Pharmacovigilance
- Drug development, Pharmacokinetics and Imaging

List C:

- Quality Improvement Science and Systems Analysis
- Human Factors, Teamwork and Communication
- Becoming a Clinical Educator
- Teaching Evidence-Based Practice

The majority of modules are run over either an eight, or fifteen week learning cycle.

### Teaching format

Most modules are either delivered fully online or in a blended format, however, some modules are only delivered with a blended format that includes a five day attendance in Oxford, and some are only run entirely online. In any given year, not all delivery formats for a module may be available.

Modules are spaced out throughout the academic year, allowing a choice of options to be taken over the one to three years students attend the course.

### Blended format

An initial period of self-directed study is spent on introductory activities using a Virtual Learning Environment (VLE). This is followed by a week spent in Oxford for supported face-to-face teaching, and then a further period of Post-Oxford activities (a mixture of self-directed and supported distance learning also delivered through the VLE). The final week of each module is for self-directed personal study, shortly followed by the assignment submission.

### Fully online format

Fully online modules are delivered through the VLE with the first week allocated to self-directed introductory activities.

For some modules you will have a number of units to work through which are released week by week. Each unit includes a mixture of supported and self-directed learning with discussion forums, tasks and activities. You will then have five weeks of self-directed personal study with use of a revision forum and the requirement to submit an assignment electronically the following week. These modules usually run over a 15 week period.

For other modules, five consecutive days of synchronous and asynchronous teaching sessions will be followed by a further period of activities (A mixture of self-directed and supported distance learning also delivered through the VLE). The final week of each module is for self-directed personal study, shortly followed by the assignment submission. These modules usually run over an eight week period.

### Attendance

As a part-time student, you will be required to attend a minimum of two modules (one of which must be a compulsory module) 'in person' in Oxford. Each 'in person' module requires you to attend a week (five days) in Oxford for supported face to face teaching. Your other four modules can be made up of a mix of 'in person', or fully online modules.

All students are required to attend a minimum of one module in each academic year on course. This can either be 'in person' or fully online.

### Resources to support your study

As a graduate student, you will have access to the University's wide range of world-class resources including libraries, museums, galleries, digital resources and IT services.

The Bodleian Libraries is the largest library system in the UK. It includes the main Bodleian Library and libraries across Oxford, including major research libraries and faculty, department and institute libraries. Together, the Libraries hold more than 13 million printed items, provide access to e-journals, and contain outstanding special collections including rare books and manuscripts, classical papyri, maps, music, art and printed ephemera.

The University's IT Services is available to all students to support with core university IT systems and tools, as well as many other services and facilities. IT Services also offers a range of IT learning courses for students, to support with learning and research.

The Rewley House Continuing Education Library, one of the Bodleian Libraries, is situated in Rewley House. The department aims to support the wide variety of subjects covered by departmental courses at many academic levels. The department also has a collection of around 73,000 books together with periodicals. PCs in the library give access to the internet and the full range of electronic resources subscribed to by the University of Oxford. Wi-Fi is also available. The Jessop Reading Room adjoining the library is available for study. The department provides various IT facilities, including the Student Computing Facility which provides individual PCs for your use.

### Supervision

The allocation of graduate supervision for this course is the responsibility of the Department for Continuing Education and this role will usually be performed by the Course Director. Under exceptional circumstances a supervisor may be found outside the Department for Continuing Education and/or the Nuffield Department of Primary Health Care Sciences.

### Assessment

Assessments are conducted at the end of each module and comprise a written paper, submitted via an online portal.

### **Changes to this course**

The University will seek to deliver this course in accordance with the description set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after you commence your course. These might include significant changes made necessary by any pandemic, epidemic or local health emergency. For further information, please see the University's Terms and Conditions (<http://www.graduate.ox.ac.uk/terms>) and our page on changes to courses (<http://www.graduate.ox.ac.uk/coursechanges>).

## Costs

### Modular course fees

The fees for this course are charged on a modular basis. You will pay an annual course fee and an additional fee for each module studied. A minimum of two annual course fees are payable for this course. If this course includes a dissertation, three module fees will be charged for the dissertation.

### Fees for the 2025-26 academic year

Fee status	Annual Course Fee	Fee per module	Total estimated fees
Home	£9,020	£2,740	Please see the department's website for further details
Overseas	£9,020	£2,740	

### Information about course fees

Course fees are payable each year, for the duration of your fee liability (your fee liability is the length of time for which you are required to pay course fees). For courses lasting longer than one year, please be aware that fees will usually increase annually. Information about how much fees and other costs may increase is set out in the University's Terms and Conditions (<http://www.graduate.ox.ac.uk/terms>).

Course fees cover your teaching as well as other academic services and facilities provided to support your studies. Unless specified in the additional cost information (below), course fees do not cover your accommodation, residential costs or other living costs. They also don't cover any additional costs and charges that are outlined in the additional cost information.

### Additional cost information

This course has residential sessions in Oxford so you will need to meet any travel and accommodation costs you may incur in attending these sessions.

## Living costs

In addition to your course fees and any additional course-specific costs, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

If you are studying part-time your living costs may vary depending on your personal circumstances but you must still ensure that you will have sufficient funding to meet these costs for the duration of your course.

The likely living costs for the 2025-26 academic year are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

### Likely living costs for one month

	Lower range	Upper range
<b>Food</b>	£330	£515
<b>Accommodation</b>	£790	£955
<b>Personal items</b>	£200	£335
<b>Social activities</b>	£45	£100
<b>Study costs</b>	£40	£90
<b>Other</b>	£20	£40
<b>Total</b>	£1,425	£2,035

### Likely living costs for nine months

	Lower range	Upper range
<b>Food</b>	£2,970	£4,635
<b>Accommodation</b>	£7,110	£8,595
<b>Personal items</b>	£1,800	£3,015
<b>Social activities</b>	£405	£900
<b>Study costs</b>	£360	£810
<b>Other</b>	£180	£360
<b>Total</b>	£12,825	£18,315

### Likely living costs for twelve months

	Lower range	Upper range
<b>Food</b>	£3,960	£6,180
<b>Accommodation</b>	£9,480	£11,460
<b>Personal items</b>	£2,400	£4,020
<b>Social activities</b>	£540	£1,200
<b>Study costs</b>	£480	£1,080
<b>Other</b>	£240	£480
<b>Total</b>	£17,100	£24,420

When planning your finances for any future years of study at Oxford beyond the 2025-26 academic year, it is suggested that you allow for potential increases in living expenses of 4% each year – although this rate may vary depending on the national economic situation.

More information about how these figures have been calculated is available at [www.graduate.ox.ac.uk/livingcosts](http://www.graduate.ox.ac.uk/livingcosts).

## Document accessibility

If you require a more accessible version of this document please contact Graduate Admissions and Recruitment by email ([graduate.admissions@admin.ox.ac.uk](mailto:graduate.admissions@admin.ox.ac.uk)) or via the online form (<http://www.graduate.ox.ac.uk/ask/form>).
