

## Course Information Sheet for entry in 2025-26: MPhil in Linguistics, Philology and Phonetics

### Course facts

Mode of study	Full Time Only
Expected length	21 months

### About the course

The MPhil in Linguistics, Philology and Phonetics is a taught course offering a range of options for graduates seeking a higher academic qualification in language studies and wishing to specialise in general linguistics (including phonetics but not applied linguistics), in historical and comparative linguistics, or in the linguistics of a specific language.

### Course structure

In addition to a compulsory paper in linguistic theory, you will specialise in general linguistics (B), Indo-European historical and comparative philology and linguistics (C) or in the linguistics of one or two selected languages (D).

#### Option B

You will select three options from the following range of topics:

- Phonetics and Phonology
- Syntax
- Semantics and Pragmatics
- Historical and Comparative Linguistics
- Psycholinguistics and Neurolinguistics
- History and Structure of a Language
- Experimental Phonetics.

You may also ask for one option in another subject in general linguistics; approval will be subject to the availability of proper instruction and provision for examination. For students with substantial previous training in the subject, it is also possible to choose Computational Linguistics as an option.

Please note that not all options may be offered every year, depending on the availability of teaching.

#### Option C

You will select two ancient Indo-European languages or language groups (eg Greek, Italic, Celtic, Anatolian, Indo-Iranian, Slavic). Three exam papers cover the comparative grammar, the historical grammar, and a number of set texts for linguistic commentary in the two languages or language groups.

#### Option D

You may select either ancient (eg Latin, Sanskrit) or modern languages (eg French, Italian, German, Slavic languages).

There will be three examination papers:

- (i) the history of one language, or of two or more historically related languages;
- (ii) the structure of the language or languages selected; and
- (iii) translation from, and/or linguistic comment on, texts in the language or languages selected, or (iiib) a project on an aspect of the structure or history of the language, or family of related languages, studied.

Subject (iii) may be replaced with any of the modules listed under Option B above, except for History and Structure of a Language.

Alongside attending tutorials, lectures and seminars, you'll be expected to spend around 40% of your time on self-directed learning. This will increase to 60% as the course progresses.

### Attendance

The course is full-time and requires attendance in Oxford. Full-time students are subject to the University's Residence requirements.

### Resources to support your study

The Faculty of Linguistics, Philology and Phonetics will be based in the Schwarzman Centre for the Humanities, a brand-new building at the University of Oxford, which will accommodate seven faculties, two institutes, a new library, a large number of well-equipped teaching and seminar rooms, and performance and arts venues. Each faculty will have its own centre and social hub within a building which will also facilitate interdisciplinary and collaborative work. At the heart of the building is a large atrium – called the Great Hall – which will be a beautiful space, bringing light into the building, and serving as a space for informal work, relaxation, meeting with friends, taking breaks, having refreshments – and much more.

The building will enable the recently-established Cultural Programme to flourish, with a 500-seat world class concert hall, a theatre, experimental performance venue, 100-seat cinema, and exhibition hall. Many of these venues will support academic and student-led activities, as well as performances and creative works by professional artists. The cultural programme will enrich the lives of students, and will also provide opportunities to get involved.

### **Phonetics Laboratory**

The experimental area consists of a recording studio, an acoustics and speech processing laboratory, a physiological laboratory and a speech perception laboratory. Hardware for physiological study, available to students and staff, includes labial electromyography, oral/nasal aerometry (measurement of air pressures and flow) and ultrasound tongue imaging.

The studios, for recording and for running experiments, are equipped with high-quality microphones and digital recording equipment, and computer systems for the presentation of visual and/or auditory stimuli.

### **Language and Brain Laboratory**

The language and Brain Laboratory offers research staff and students bespoke facilities and specialist equipment to conduct a wide variety of behavioural, eye-tracking and neurolinguistics experiments. There is a common room for tutorials and meetings.

The laboratory has separate spaces for Neurolinguistics, Eye-Tracking, Production, and Behavioural studies. We have two electronically shielded sound-proofed climate-controlled EEG booths for recording brain waves. EEG recordings are made using high-impedance (300 Mohms) active electrode systems: we are currently conducting experiments on two systems: BioSemi and Brain Vision. An additional soundproof room is used for high quality audio recordings and eye-tracking studies. Our state-of-the-art SR Research Eyelink1000 eye tracker can be used on its own, or in combination with our EEG equipment.

One of the largest spaces is the Behavioural Lab, where there is bespoke equipment and software to run experiments such as lexical decision tasks or timed forced choice experiments. Eight participants can currently run simultaneously at individually screened desks, or up to 16 participants with a projector setup. All of the testing rooms have an associated control room to monitor the experiments and analyse the results.

### **Library provision**

Oxford's library provision in linguistics is one of the largest in the country. Oxford's libraries are superbly provided with material on theoretical linguistics, the structure and history of European languages, ancient Indo-European languages, and non-Indo-European as well as Indo-European languages of Asia.

There will be 340 general reader seats, and around 80 graduate study seats – with a further 320 formal and informal study seats throughout the building outside the library.

Open-shelf lending collections will be complemented by access to electronic resources, scan on demand, and material requested from the Bodleian's Collections Storage Facility. As well as the Library's extensive staffed hours, there will be a 24/7 study space, including smart lockers for self-collect of borrowable items out of hours. Subject support is provided by a team of subject librarians.

### **Supervision**

The allocation of graduate supervision for this course is the responsibility of the Faculty of Linguistics, Philology and Phonetics and it is not always possible to accommodate the preferences of incoming graduate students to work with a particular member of staff. Under exceptional circumstances a supervisor may be found outside the Faculty of Linguistics, Philology and Phonetics.

Most students have the opportunity to meet with their course supervisor at the beginning and end of each term to receive advice about useful lectures and seminars and to review the progress made.

### **Assessment**

The compulsory paper in linguistic theory will be examined at the end of the first year. Three other assessments (corresponding to the options you have chosen) will take place in the final term of the second year. Assessment will involve exams and/or submissions depending on which options you choose.

MPhil students also write a thesis, which is submitted in the final term of the second year.

**Changes to this course**

The University will seek to deliver this course in accordance with the description set out above. However, there may be situations in which it is desirable or necessary for the University to make changes in course provision, either before or after you commence your course. These might include significant changes made necessary by any pandemic, epidemic or local health emergency. For further information, please see the University's Terms and Conditions (<http://www.graduate.ox.ac.uk/terms>) and our page on changes to courses (<http://www.graduate.ox.ac.uk/coursechanges>).

## Costs

### Annual fees for entry in 2025-26

Fee status	Annual Course fees
Home	£16,900
Overseas	£41,250

### Information about course fees

Course fees are payable each year, for the duration of your fee liability (your fee liability is the length of time for which you are required to pay course fees). For courses lasting longer than one year, please be aware that fees will usually increase annually. Information about how much fees and other costs may increase is set out in the University's Terms and Conditions (<http://www.graduate.ox.ac.uk/terms>).

Course fees cover your teaching as well as other academic services and facilities provided to support your studies. Unless specified in the additional cost information (below), course fees do not cover your accommodation, residential costs or other living costs. They also don't cover any additional costs and charges that are outlined in the additional cost information.

### Additional cost information

Depending on the students choice of options, and especially the choice of thesis project, some fieldwork or experimental work may be required. Some thesis options will require laboratory experiments, for which a budget of £75 is available to pay participants. Some may require overseas fieldwork, for which the faculty has a budget of £500 towards travel and subsistence costs. The Faculty makes available some funding for language training, where relevant.

## Living costs

In addition to your course fees and any additional course-specific costs, you will need to ensure that you have adequate funds to support your living costs for the duration of your course.

The likely living costs for the 2025-26 academic year are published below. These costs are based on a single, full-time graduate student, with no dependants, living in Oxford. We provide the cost per month so you can multiply up by the number of months you expect to live in Oxford.

### Likely living costs for one month

	Lower range	Upper range
<b>Food</b>	£330	£515
<b>Accommodation</b>	£790	£955
<b>Personal items</b>	£200	£335
<b>Social activities</b>	£45	£100
<b>Study costs</b>	£40	£90
<b>Other</b>	£20	£40
<b>Total</b>	£1,425	£2,035

### Likely living costs for nine months

	Lower range	Upper range
<b>Food</b>	£2,970	£4,635
<b>Accommodation</b>	£7,110	£8,595
<b>Personal items</b>	£1,800	£3,015
<b>Social activities</b>	£405	£900
<b>Study costs</b>	£360	£810
<b>Other</b>	£180	£360
<b>Total</b>	£12,825	£18,315

### Likely living costs for twelve months

	Lower range	Upper range
<b>Food</b>	£3,960	£6,180
<b>Accommodation</b>	£9,480	£11,460
<b>Personal items</b>	£2,400	£4,020
<b>Social activities</b>	£540	£1,200
<b>Study costs</b>	£480	£1,080
<b>Other</b>	£240	£480
<b>Total</b>	£17,100	£24,420

When planning your finances for any future years of study at Oxford beyond the 2025-26 academic year, it is suggested that you allow for potential increases in living expenses of 4% each year – although this rate may vary depending on the national economic situation.

More information about how these figures have been calculated is available at [www.graduate.ox.ac.uk/livingcosts](http://www.graduate.ox.ac.uk/livingcosts).

## Document accessibility

If you require a more accessible version of this document please contact Graduate Admissions and Recruitment by email ([graduate.admissions@admin.ox.ac.uk](mailto:graduate.admissions@admin.ox.ac.uk)) or via the online form (<http://www.graduate.ox.ac.uk/ask/form>).
